

Our Approach_Quality

We take pride in our work.

We are committed to producing the best possible solutions for our clients. With seven studios in the UK and India, we can draw upon the resources of an international practice and still deliver our work with the care and consideration that comes from knowing our local area.

This also means that all our staff, from every office, can learn from the experience we gain from each project. Sharing knowledge is vital to our work, and we have internal measures in place to enable this.

Reinforcing this approach, we are accredited to Quality Assurance Standard ISO9001, and have been for the past eight years. We also act in line with RIBA Codes of Practice and Standards of Professional Performance.

Our processes allow for flexibility, so that we can continuously improve our work and the effectiveness of our Quality Management System.
