

Services_Interior Design

Architecture and interior design are perfect partners: offering both means that we can provide complete integration of built form and space, light and texture, furniture and fabrics, colour and materials - right down to the finest detail. We are always excited to be able to design and deliver complete solutions, which meet our clients' aspirations so comprehensively.

Our interior design team also works independently of our architectural services, producing fresh, responsive solutions to internal spaces.

Tower 42

The main entrance and reception of Tower 42, has been rejuvenated by ADP's interior design team. The new central atrium has been transformed into a stylish, state-of-the-art foyer and reception area, that reflects the luxury and magnitude of Tower 42.
